

Technical Data Sheet

DOW™ Wire & Cable DFDA-1216 NT

Low Density Polyethylene

Overview

DOW™ Wire & Cable DFDA-1216 NT is a natural high molecular weight, low density polyethylene. DOW™ Wire & Cable DFDA-1216 NT has been designed for use as a crosslinkable homopolymer for use with organic peroxides. The molecular characteristics of the product provide excellent extrusion processing, high efficiency of crosslinking, and excellent mechanical properties.

Sustainability Attribute:

Typical Properties

Physical	Nominal Value	Unit (English)	Nominal Value	Unit (SI)	Test Method ¹
Density	0.925	g/cm ³	0.925	g/cm ³	ASTM D792
Melt Mass-Flow Rate (190°C/2.16 kg)	2.4	g/10 min	2.4	g/10 min	ASTM D1238
Electrical	Nominal Value	Unit (English)	Nominal Value	Unit (SI)	Test Method
Volume Resistivity	> 1.0E+15	ohms-cm	> 1.0E+15	ohms-cm	ASTM D257
Dielectric Strength	660	V/mil	26	kV/mm	ASTM D149
Dielectric Constant (60 Hz)	2.40		2.40		ASTM D1531
Dissipation Factor (60 Hz)	3.0E-4		3.0E-4		ASTM D1531
Extrusion	Nominal Value	Unit (English)	Nominal Value	Unit (SI)	Test Method
Melt Temperature	248 to 266	°F	120 to 130	°C	

Extrusion Notes

DOW™ Wire & Cable DFDA-1216 NT provides an excellent surface finish and outstanding output rates over a broad range of conditions. For optimum results, use melt extrusion temperatures in the suggested range of 248 to 266°F (120 to 130°C) when processed with organic peroxides. However, specific recommendations for processing conditions can be determined only when the application and type of processing equipment are known.

1. ASTM: American Society for Testing and Materials

These are typical properties only and are not to be construed as specifications. Users should confirm results by their own tests.

Product Stewardship

Dow has a fundamental concern for all who make, distribute, and use its products, and for the environment in which we live. This concern is the basis for our product stewardship philosophy by which we assess the safety, health, and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our product stewardship program rests with each and every individual involved with Dow products — from the initial concept and research, to manufacture, use, sale, disposal, and recycle of each product.

Customer Notice

Dow strongly encourages its customers to review both their manufacturing processes and their applications of Dow products from the standpoint of human health and environmental quality to ensure that Dow products are not used in ways for which they are not intended or tested. Dow personnel are available to answer your questions and to provide reasonable technical support. Dow product literature, including safety data sheets, should be consulted prior to use of Dow products. Current safety data sheets are available from Dow.

Medical Applications Policy

Any and all medical application use of Dow materials, whether a device, a component, or any type of primary or secondary packaging of a medically related object or substance, needs to be reviewed and approved by Dow before any Dow material can be tested in such application.

Dow requests that customers considering use of Dow products in medical applications notify Dow so that appropriate assessments may be conducted. Dow does not endorse or claim suitability of its products for specific medical applications. It is the responsibility of the medical device or pharmaceutical manufacturer to determine that the Dow product is safe, lawful, and technically suitable for the intended use. **DOW MAKES NO WARRANTIES, EXPRESS OR IMPLIED, CONCERNING THE SUITABILITY OF ANY DOW PRODUCT FOR USE IN MEDICAL APPLICATIONS.**

For further information contact your Dow sales or technical representative to request a Medical Application Review Request Form.

Additional details of Dow's Medical Applications Policy are available at:
<https://www.dow.com/en-us/support/product-safety.html>.

Tobacco and Marijuana Policy

Dow does not support or intend for its products to be used, directly or indirectly, in the production of tobacco, the manufacture of tobacco products, the manufacture and use of electronic cigarettes (including vaping devices), the production of marijuana, or the manufacture of marijuana products intended for human consumption, where the Dow product (or its residues) may be present in the finished product or be alleged to facilitate the delivery of nicotine, other tobacco components, marijuana, or marijuana components.

Harmful Applications Policy

Dow does not intend for its products to be used in applications specifically intended to harm humans.
