

VINPOL™ GP084R

Polyethylene Terephthalate

VINPOL GP084R is a PET copolymer with low acetaldehyde generation. It is designed for injection blow molding of PET bottles, containers, jars and extrusion of APET sheets/Films and PET straps. This product complies with U.S. FDA 21 CFR 177.1630.

Resin Property	Typical Value	Units	Test Method
Intrinsic Viscosity	0.8400 +/- 0.02	dl/g	Supplier Method
Cryst	>= 50	%	Supplier Method
Acetaldehyde	<= 1.0	ppm	Supplier Method
Color CIE LAB b*	-3.0 ~ 0.0		Supplier Method
Chips Size	68+/- 5	Pcs/g	Supplier Method
Dust	<=100	ppm	Supplier Method
