

VinPol™ LH00825BL

Linear Low Density Polyethylene

Melt Index: 0.80

Density: 0.925

VINPOL LH00825BL is a linear low density hexene copolymer resin with enhanced film strength, drawdown, toughness and stiffness. Typical applications include heavy duty shipping sacks, trash can liners, commercial and industrial packaging, as well as food and consumer packaging. This product offers excellent additive homogeneity, requires no transfer equipment modification, and facilitates clean and safe handling.
